EXPERIENCE

SOWINGO; TORONTO, ONTARIO – 2020-2024

SENIOR FRONTEND ENGINEER – FEB 2023 - NOV 2024

- Took full ownership of feature planning, creation, deployment, iteration, and maintenance
- Spearheaded modernization of website and establishment of new revenue streams
- Reviewed pull requests, managed releases and hotfixes for staging and production
- Led hiring process and onboarded, trained, and mentored junior developers and interns
- Tackled technical debt, ensured readability, modularity, and extensibility of codebase
- Created documentation, code standards, RCAs, UMLs, flow charts, and other visual aids
- Designed proprietary feature flag system, ensured alignment between web, mobile, and API
- Built embeddable widget, leveraging **Parcel** for incorporation into specialist websites

WEB DEVELOPER – DEC 2020 - FEB 2023

- Architected **React** submodule with **TypeScript** to embed within legacy **Angular** app
- Integrated **React Query** and **Mock Service Worker** into the development workflow
- Incorporated **Jest**, **React Testing Library**, and **Playwright** to facilitate CI/CD with **GHA**
- Created, maintained, and enhanced features, including unit, integration, and e2e tests
- Collaborated with product managers, UI/UX designers, QA team, and backend developers

Other tools and technologies include **JavaScript**, **HTML**, **CSS**, **Sass**, **Less**, **PrimeReact**, **Cypress**, **Git**, **GitHub**, **GitHub Copilot**, **Jira**, **Confluence**, **Figma**, **Visual Studio Code**, and **Slack**.
